DETAILED ACTION

Response to Amendment

1. This action is in response to amendment filed May 24th, 2005.

REASONS FOR ALLOWANCE

2. Claims 1-16 are allowable over the prior art.
3. The following is an examiner's statement of reasons for allowance:

With respect to claims 1-13 & 16, reasons for allowance have been given in a previous office action.

With respect to claims 14-15, the amendment of the claims have overcome the previous rejection in final rejection sent January 24th, 2005 because the combination of teachings of US 6,034,406 to Kobayashi in view of US 6,710,364 B2 to Guidi et al does not disclose nor suggest the modification of the plurality of photodiodes. The combination of teachings instead discloses that the manufacturer would modify the assembly by placing a mark on the side of the substrate rather than effectuating change of the photodiode array itself.

With respect to claims 1-16, US 6,812,058 B2 to Dennis et al disclose the use of sensor pixel arrays (10, 20), with the use of removal of microlenses in locations (40) and the arrangements of red, green, and blue filters as illustrated in figure 2 to encode information about the color process, mask revision, product, and a start and end code (see column 2, lines 17-19). However, the teachings of Dennis et al do not constitute prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
